National Collaborating Centre for Healthy Public Policy

The National Collaborating Centre for Healthy Public Policy (NCCHPP) seeks to increase the expertise of public health actors across Canada in healthy public policy through the development, sharing and use of knowledge. It is one of six centres funded by the Public Health Agency of Canada located across Canada, each with a mandate for knowledge synthesis, translation and exchange in a different area of public health.

Production of this document has been made possible through a financial contribution from the Public Health Agency of Canada through funding for the National Collaborating Centre for Healthy Public Policy (NCCHPP).

The views expressed herein do not necessarily represent the views of the Public Health Agency of Canada.

This document is available in its entirety in electronic format (PDF) on the National Collaborating Centre for Healthy Public Policy website at: www.ncchpp.ca.

La version française est disponible sur le site Internet du CCNPPS au www.ccnpps.ca.

This is a preliminary document. We invite reader feedback, which can be sent to ncchpp@inspq.qc.ca

Information contained in the document may be cited provided that the source is mentioned.

INTRODUCTION

Public health ethics (PHE) is a relatively new field of study that encourages interdisciplinary discussion of moral issues in the theory and practice of public health and preventive medicine. Emerging over the last 15 years out of dissatisfaction with the traditional orientations of biomedical ethics, PHE involves the explicit use of concepts from ethical and political theory to discuss and evaluate collective interventions that aim to protect and promote the health of groups and populations rather than of individuals.

This preliminary inventory of individuals engaged in PHE-related research and teaching across the country is a first step in developing a comprehensive pan-Canadian information portal for PHE resources, researchers, educators, projects and literature to be hosted by the National Collaborating Centres for Public Health (NCCPH). There is currently no centralized and up to date repository of such information, despite an ever-increasing interest in public health ethics. In fact, a diverse and dynamic community is emerging, even if the diversity and extent of this community is not fully apparent. The NCCCPH will help build and reinforce links among public health practitioners, researchers, policy-makers and educators engaged in PHE by creating an online library of resources and space for dialogue, information-exchange, and collaboration. It is hoped that the list below will serve as a basis for a more systematic cataloguing of individual and collective efforts in developing, teaching, and applying PHE, one to which you are cordially invited to contribute.

The list includes those who have taught, published, and/or presented conceptual or empirical work in the field of public health ethics, as identified through academic databases, conference proceedings, electronic searches, and through informal networking.

The list is a work in progress, and we welcome your input, comments, corrections, updates and additions. If you identify an error, or would like to add your name (or have it removed), or draw attention to additional relevant individuals, organizations, or materials, please e-mail Christopher McDougall at christopher_w.mcdougall@inspq.qc.ca. We also welcome your comments as to the usefulness of this approach to network building in public health ethics across Canada.

FIRST NAME	LAST NAME	INSTITUTION	PUBLIC HEALTH ETHICS RESEARCH/EXPERTISE/KNOWLEDGE
Carolina	Alfieri	Centre Hospitalier Universitaire Sainte-Justine (Montréal), Centre de recherche	Lead Ethicists on Canadian Panflu Plan; CIHR Catalyst Network Member
Tracey	Bailey	University of Alberta, Health Law Institute	CIHR Catalyst Network Member
Francoise	Baylis	Dalhousie University, Department of Bioethics	CIHR Catalyst Network Member
Solly	Benatar	University of Toronto, School of Public Health	Ethics of International Research; Global Health Ethics; HIV/AIDS and human rights; Public health ethics
Cécile	Bensimon	University of Toronto, Joint Centre for Bioethics	Ethics of Restrictive Measures, Social Distancing, Quarantine; Public Health & Social Justice
Michael	Burgess	University of British Columbia, Centre for Applied Ethics	Health Policy Ethics, Public Engagement & Deliberative Democracy on Biotechnology
Tim	Caulfield	University of Alberta, Health Law Institute	Ethics & Genetics/Genomics; Confidentiality & Biobanking; Ethics and Public Health Law
Michael	Christian	Mount Sinai Hospital (Toronto), Division of Infectious Diseases	Priority setting during emergencies; Critical care triage during an influenza pandemic;
Ghislaine	Cleret de Langavant	Quebec Health and Welfare, Office of the Health Commissioner	Deputy Health Commissioner Responsible for Ethics; Population Health Ethics
Angus	Dawson	University of Toronto, School of Public Health	Editor, Public Health Ethics; Widely published on moral theory & public health
Bernard	Dickens	University of Toronto, Faculty of Law (Emeritus)	Widely published on Ethics, Law & Medicine; Public Health Law & Ethics
Katie	Dilworth	Toronto Public Health, Professional Practice Consultant, Planning and Policy	Community health nursing ethics
Willie	Ermine	First Nations University of Canada	Research with Indigenous peoples; CIHR guidelines developer; intercultural "ethical space"
Robert	Evans	University of British Columbia, Department of Economics	Ethics & Health Policy/Economics; Health Inequities; Non-Medical Determinants of Health; Population Health Modeling
Karen	Faith	University of Toronto, Joint Centre for Bioethics	Clinical and professional ethics; Pandemic Ethics; Organizational ethics
Michelle	Driedger	University of Manitoba, Department of Community Health Sciences	Ethics and Environmental Health Risk Communication, Role of the Media

FIRST NAME	LAST NAME	INSTITUTION	PUBLIC HEALTH ETHICS RESEARCH/EXPERTISE/KNOWLEDGE
Elaine	Gibson	Dalhousie University, Health Law Institute	CIHR Catalyst Network Member
