

Seminar on the evaluation of health impact assessments (HIAs)

Approaches and experiences in France, Switzerland and Québec

Tuesday, October 15, 2019, 1:30 PM

INSPQ, 190 Crémazie Blvd. East, Montreal, Room RC.03-B
(remotely, in the Québec City offices of the INSPQ: Room B2-53)

OBJECTIVES

1. Present various approaches to evaluating HIAs, derived from three different national contexts
2. Discuss and critically assess these approaches to evaluation in order to identify complementary elements and potential linkages

PROGRAM

1:30 PM	Welcome and introduction
1:35 PM	Introduction of the participants (round table)
1:45 PM	Example from France Françoise Jabot, EHESP, Rennes
2:05 PM	Example from Switzerland Thierno Diallo, NCCHPP
2:25 PM	Example from the Montérégie Region in Québec Sarah Dutilly-Simard, CIUSSS Montérégie-Centre
2:45 PM	Break
3:00 PM	Example from Québec City Stéphanie Gamache, Laval University
3:20 PM	Example of Measure 2.6 of the PGPS in Québec Marc Lemire, INSPQ
3:40 PM	Open Discussion: diverse perspectives on complementary elements and potential linkages between these different approaches
4:30 PM	End of the seminar

Participants: The seminar is open to scientific advisers within the INSPQ and professionals within the MSSS interested in public policy, in evaluation more broadly, or in HIA in particular. If you think that this activity could be of interest to other persons, please notify us. Given that places are limited and to ensure access to the Québec city office, it is necessary to confirm attendance in advance by writing to: marc.lemire@inspq.qc.ca

Organizers: Marc Lemire¹ and Thierno Diallo²

¹ Unité Partenariats et expertises transversales: évaluation, recherche et équité (cross-cutting partnerships and expertise: evaluation, research and equity unit), INSPQ

² National Collaborating Centre for Healthy Public Policy (NCCHPP)
