Politiques publiques favorables à la santé

Les politiques publiques favorables à la santé (PPFS) permettent une meilleure coordination des politiques dans plusieurs secteurs.

Les PPFS ont pour objectifs de réduire les inégalités et d'agir sur les facteurs qui influencent le bien-être.

Businesses turning to windmills for power

Last Updated: Friday, February 6, 2009 | 1:25 PM AT
CBC News Comments 21 Recommend 23

Energy use at Trout River Industries has been growing. (CBC)

With electricity costs rising steadily, some businesses on P.E.I. have taken charge of their own power, installing wind turbines on their property.

Trout River Industries has for the last decade been manufacturing live bottom trailers in Coleman, near Summerside. It's a technology that allows truck operators to load and unload material much more easily than with a conventional dump truck. The company has been growing steadily, and now has 41 employees.

Owner Harvey Stewart found his payroll wasn't the only expense that was growing. His electricity bill was on the rise as well, and it reached the point where he felt he could do better off the grid. Two 50-megawatt turbines now power his entire plant.

[PRINT](#) [E-MAIL](#) [REPORT ERROR](#)

SPITE a diverse economy that has been largely insulated from recession, Manitoba has among the highest usage of food banks in the country, a new study has found.

Food Banks Canada, a national charity supporting the food bank community across Canada, said the number of people accessing food banks in Manitoba rose more than 18 per cent for the 12 months ending in March, 2009. That's the fourth-highest increase in the country, trailing only Alberta (1 per cent), Nova Scotia (20 per cent) and Ontario (19 per

[PRINT](#) [E-MAIL](#) [SHARE THIS](#) [REPORT ERROR](#)

WINNIPEG — City council has rejected a new city-wide recycling contract that would have seen 60-litre blue boxes replaced with 240-litre rolling carts this September.

In an unusual move, council voted 10-4 to defeat a 7.5-year, \$35 million recycling contract. A majority of council does not believe it will provide the city the flexibility to bring in a contract strategy that includes organics, it seems to be doing to do," said public works chairman Bill Cl...

modifications or augmentations to the garbage collection service provided by rolling carts.

Support of the recycling plan were Couns. Scott Brison, Gord Steeves (St. Vital) and Justin Swand...

...oted to defeat the contract. "I'm sure the ward council will do what's right for the city," he said.

...waste department to negotiate the extension of the recycling minimization plan is developed.

Loto-Québec to offer online gambling

Last Updated: Thursday, February 4, 2010 | 1:10 PM ET
CBC News

Quebec's lottery corporation will launch its first online gambling service in September — a move Loto-Québec hopes will add millions of dollars to its coffers by 2013, the province's finance minister said Wednesday.

Allowing Loto-Québec to join the lucrative online market, beginning with poker and sports betting, could earn the province about \$50 million over the next three years, Finance Minister Raymond Bachand said. And he said he'd be happy if Loto-Québec could carve out an even larger segment of the estimated \$675-million online market than that.

Critics worry offering online gambling will be akin to a game of Russian roulette for gambling addicts.

Plan

- 1) Définition de l'ÉIS
- 2) Fondements théoriques
- 3) L'ÉIS en pratique
- 4) Les 5 étapes de l'ÉIS

La définition la plus utilisée

« une combinaison de procédures, méthodes et outils qui permettent de **juger les effets possibles d'une politique**, d'un programme ou projet **sur la santé de la population** et la **distribution de ces effets** au sein de la population »

ECHP, WHO, 1999

Centre de collaboration nationale
sur les politiques publiques et la santé
National Collaborating Centre
for Healthy Public Policy

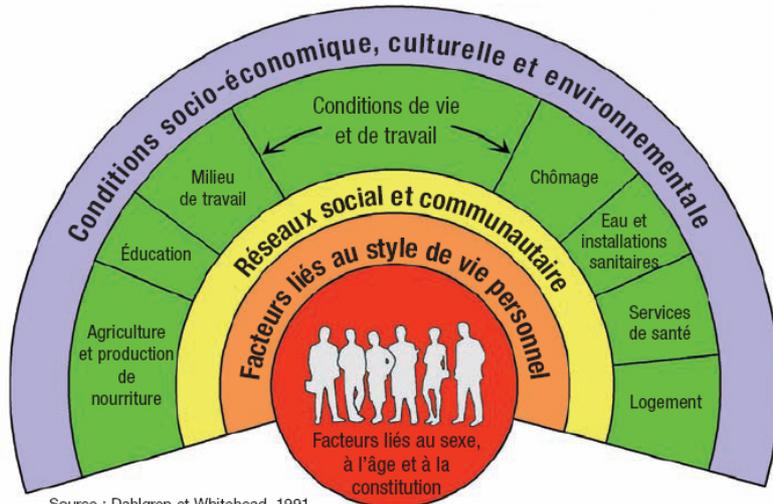

Deux sources

- **Évaluation d'impact sur l'environnement (ÉIE)**
 - Rigueur méthodologique (science)
 - Prise en charge par les experts
- **Promotion de la santé**
 - Déterminants sociaux de la santé et équité (effets distributifs)
 - Participation citoyenne (*empowerment*)
 - Pour actualiser la stratégie de la Charte d'Ottawa : politiques publiques et environnements favorables à la santé

Principes de base

Figure 1 – Cadre d'analyse des déterminants de la santé

Source : Dahlgren et Whitehead, 1991

Image : Infolettre Évaluation des pratiques de gestion et d'évaluation dans le domaine de la santé, vol3 no 2 octobre 2006 p. 10 consulté mars 2010 (<http://www.medsp.umontreal.ca/getos/pdf/Infopr102006.pdf>)

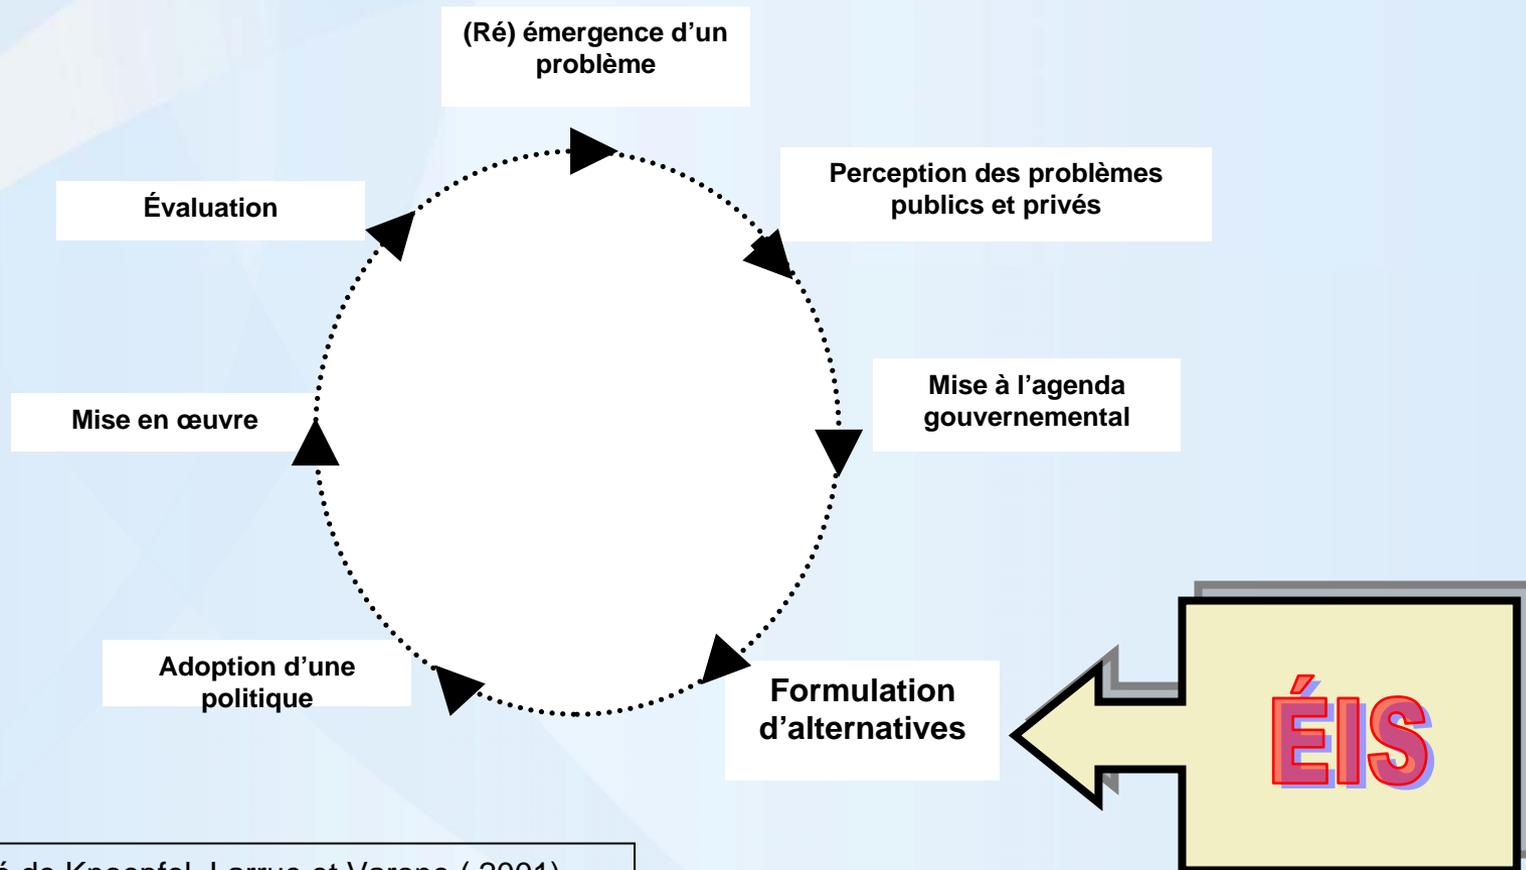

Démocratie, développement durable, équité, participation, utilisation éthique des données probantes
(consensus de Göteborg)

- Réduction des inégalités sociales de santé
- Rigueur et neutralité de l'analyse
- Implication des parties prenantes et des décideurs
- Appui au processus de prise de décision
- Responsabilité collective au regard de la santé des populations

Dépistage

Annexe A Grille de dépistage Processus d'évaluation d'impact sur la santé -

Ministère :
 Responsable du dossier :
 Titre et numéro du projet de loi ou de règlement :

Déterminants de la santé*	Impact du projet de loi ou de règlement sur les déterminants de l'état de santé						Commentaires
	Très positif	Plutôt positif	Neutre	Plutôt négatif	Très négatif	N/A**	
Habitudes de vie et comportements	Saine alimentation						
	Non-tabagisme						
	Consommation modérée d'alcool						
	Pratique de l'activité physique						
Environnement social	Qualité du milieu de vie (ex.: famille, école, travail, services de garde, résidences pour personnes âgées)						
	Participation à la communauté						
	Élimination de la discrimination						
	Intégration sociale						
	Soutien à la poursuite des études						
Environnement physique	Qualité de l'eau, de l'air et du sol						
	Disposition sécuritaire des déchets dangereux						
	Sécurité des aménagements physiques						
	Sécurité (accès et qualité) des						

- Préciser la mesure de règlement à l'origine
- Décrire très brièvement
- Indiquer les groupes d'être touchés (enfants, etc.)

Cadrage

Table 2: Scoping Checklist – choosing the appropriate level of HIA

Question	Response to question	Guidance on the appropriate level of tool	More/less comprehensive
Is the magnitude of the proposed policy change significant?		The greater the magnitude of the policy shift, the more comprehensive the tool should be	
Are there significant potential health impacts of the policy change?		The greater the significance of potential health impacts, and the higher the degree of uncertainty, the more comprehensive the tool should be	
How urgent is the need for policy change?		If there is relatively high urgency then select a less comprehensive tool	
Is the timing critical in relation to other policies/issues?		If timing is critically linked to other policy developments and timeframes are short, select a less comprehensive tool	
What is the level of political interest?		The higher the level of political interest, the more comprehensive the tool should be	
Are there other political considerations?		The more politically complex the policy change is, the more comprehensive the tool should be	
What is the level of public interest?		The higher the level of public interest in the policy change, the more comprehensive the tool should be	
Is there a 'window of opportunity' for the work?		Consider if there is a window of opportunity (ie, timeliness, currency, political support). If the window is likely to close, select the less comprehensive tool	
What level of staff resource is available?		The higher the resource level, the more comprehensive the tool should be
